

# Spring Cleaning Made Easy

DM Disposal & the City of Sumner are teaming up once again to make it easy to clean out yard waste, excess garbage and old appliances.

Follow the directions on each of the coupons below to clean up your house and help us keep the city beautiful!

**DM DISPOSAL**

WASHINGTON

## Spring Clean Up!

### EXTRA GARBAGE

April 26, 2016

1. Put extra garbage in up to three containers or trash bags of 32 gallons or less each.
2. Do not exceed 37 lbs per container/bag. No tires, please.
3. Tape this coupon prominently to one of your containers/bags.
4. Put containers/bags out by 7am on April 26.
5. DM Disposal will pick it up that day, free of charge!

This coupon valid for up to three bags or containers of garbage. Valid April 26, 2016. Not valid for containers/bags over 32 gallons each or weighing more than 37 pounds or tires.

## Spring Clean Up!

### YARD WASTE

April 26, 2016

1. Put yard waste in up to three containers of 32 gallons or less. Please do not use plastic bags for yard waste.
2. Do not exceed 37 lbs per container.
3. Tape this coupon prominently to one of your containers.
4. Put containers out by 7am on April 26.
5. DM Disposal will pick it up that day, free of charge!

This coupon valid for up to three containers of yard waste. Valid April 26, 2016. Not valid for bags or containers exceeding 32 gallons or 37 pounds.

## Spring Clean Up!

### OLD APPLIANCE

April 25-29, 2016

1. Put ONE old appliance on the curb by 7 am on April 25. Sorry, leaving it in the alley isn't possible as the truck can't fit in the alley.
2. That appliance may be a range, refrigerator, freezer, furnace, dryer, washing machine, dish washer, hot water tank or trash compactor.
3. Tape this coupon to appliance.
4. DM Disposal will pick it up during the week of April 25-29.

Coupon valid for one appliance only. Valid only for the listed appliances. DM Disposal will be working through the city, so your appliance may not be picked up until April 29.

*Other ways to help clean...*

Did you know that the typical suburban lawn uses over 10,000 gallons of water per year and homeowners use more pesticides per acre than farmers? There's ways you can "clean up" your own gardening habits to help clean up our rivers and water systems.

#### IDENTIFY THAT PEST!

Rather than immediately reaching for the pesticide to blast away the bugs, do a little background checking on them. Go to Washington State University's Horsense website to figure out what's ailing you and what (non-toxic) options you have.

**Puget Sound Starts Here**

#### PLANS BEFORE PLANTS

Putting plants in the right spots to begin with will save you fertilizer, water and frustration later!

#### LONG-TERM LAWNS

Quick release fertilizers release nutrients so quickly that a lot of it ends up in your ground water and stormwater (which sends it right into your rivers). Use natural organic or slow-release fertilizers to keep the nutrients in your lawn and out of our water.

#### KEEP SOIL LIGHT

Spaces keep soil healthy by holding oxygen and water. Give yourself walking paths through your garden to minimize foot traffic or heavy machinery that compacts soil. Also, know that overusing rototillers tills the same depth over and over, creating a compacted layer below that depth.

#### DEEP WATER

Water infrequently and deeply. You'll encourage plants to grow deep, healthy roots rather than shallow surface roots.

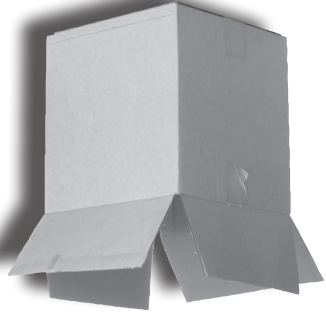

## Shred & Clean Event

April 23, 2016  
10 am - 1 pm

Old Red Apple Parking Lot,  
Downtown Sumner

While you're cleaning, there's a way to safely recycle and reuse even more of your unwanted items all in one place!

[www.sumnerwa.gov](http://www.sumnerwa.gov)

### BRING US YOUR

**Sensitive documents** for shredding (please limit 3 grocery bags per household)

**Left-over prescriptions** to Sumner Police for safe disposal

**Household goods** to Goodwill

**and MORE!**
